

Line Marking Paint

Information

Ultracrete LMP (Line Marking Paint) is a solvent based marking paint, ideal as an effective and quick method of line or spot marking on road repairs, pot holes, car parks, warehouses, building sites, sports areas, excavation sites, mining, turf marking and landscaping use. Semi permanent formula lasts at least 3 months after application under normal wear conditions.

Technical

Ultracrete LMP line marking paint is supplied in 750ml aerosol cans pressurised by hydrocarbon propellant. It's main solvent is acetone.

Colours:

- White MP1
- Yellow MP2
- Red MP3
- Blue MP4
- Green MP5

The colour on the plastic cap of the aerosol spray tin denotes the colour inside. Please identify colour required with the code numbers when ordering.

Application

Ensure surface to be marked is dry and free from dust. Shake Can well, for 2-3 minutes after weights are heard to rattle. Invert can and spray in even strokes from a distance of 175mm - 250mm (7" - 10") from the surface to be marked.

After use turn can upright and spray for 1 or 2 seconds to clear nozzle*. Product will cover almost any surface including epoxy resin coatings. (*Please take precautions when clearing the nozzle, do not paint in windy conditions).

Precaution

- If used indoors, good ventilation is necessary.
- Avoid breathing spray.
- Do not use near naked flames or extreme sources of heat.
- Gloves and overalls are recommended.
- Use eye protection if splashing is likely to occur.

Do not use in areas where potential sources of ignition exist. Do not spray on a naked flame or any incandescent material. Keep away from sources of ignition – No smoking. Keep out of the reach of children. Do not throw into fire.

Disposal

Pressurised container. Do not pierce or burn, even after use.

Features & Benefits

Ultracrete LMP – Line Marking Paint is:

- Economical.
- No waste.
- Excellent adhesion.
- No chlorinate solvents.
- Durable.
- Manufactured under a Quality Management System BS EN ISO 9001:2000.

Recommended Applications
